Student Highlight | Monica Perez

As a first generation college student TRIO has helped me navigate the many aspects that come with attending college. I first joined TRIO prior to my first fall semester in the JumpStart program. I was immediately drawn to their ability to appeal to such a diverse student population, assist with financial aid, and provide scholarship opportunities. I learned about resources on campus and took courses that counted as college credit. The TRIO staff is phenomenal and tremendously helpful; I keep coming back because of the support system that they consistently offer. I'm thankful for the personalized advisor meetings that Maria has given me throughout my undergrad career. This summer I will be participating in an Internship that oversees the implementation of a Queer peer/mentor youth program with the Utah Pride Center. I will be graduating with my BS in Health Promotion & Education in August of this year.
