We hope that the first few weeks at the U have been splendid! By now your schedules should be all set and hopefully you’re getting in the groove of things. Spring semester can fly by really quickly with projects, exams, and graduation on most peoples minds but luckily the warm weather will soon be here! There are many exciting workshops and activities happening this month both from TRIO and our community/campus partners. As many of you know, February is Black History month and there are quite a few activities and guest speakers at the U. However, Black History is important year round. This is a great time to recommit ourselves to true equity and social justice in our communities. I encourage you all to participate if you can and continue to develop your understanding of human experiences. You have the power to create the world we all live in. “The world is yours!” - NAS
