### Hello From South Korea!

Our first-year SSS/former Upward Bound students are currently in South Korea!

This experience was possible due to a coordinated effort between TRIO and the learning abroad office here at the U.

Upward Bound selected 4 students to have a semester abroad at the University of Utah's Asia Campus in Incheon, South Korea.

The study abroad, including travel, was fully paid for by Upward Bound as an opportunity to give First-Generation students the experience of learning and living in another culture.

Here is what our students have been experiencing in Korea:

"Exploring Korea and Seoul has been really interesting because you'll just be walking past some skyscrapers and there's just an ancient historical monument right there." - Mason Garner

"Learning abroad in South Korea is something that I would've never thought about before I was given the opportunity. The cultural difference between America and South Korea are large and sometimes can even be an obstacle. But I say that learning to adapt and experience new places is the fun part." - Devendra Dahal

### Study Tip!

When it comes to writing, there are numerous ways that you can do to improve. An essential part to a successful essay is to make sure it flows, is concise, and makes sense. To improve your writing you can;

- Read it aloud when you are done
- Ask a friend to proof read it
- Use an editing software like grammarly
- Ask someone from Upward Bound to help you out!
